Odor Captain HC-1 New Waste Concepts, Inc. Safety Data Sheet

Revision date: 7 December 2016 Print date: 7 December 2016

Version: Rev 1

1. Product and Company Identification

1.1 Product identifiers

Product Name Odor Captain HC-1
Producer New Waste Concepts, Inc.

Product Number Not available

CAS-No. Not available - Mixture

1.2 Identified uses of the product and uses advised against

Identified Uses Liquid formulation containing viable bacterial cultures, biodegradable surfactants and bio-

stimulating agents.

1.3 Details of the chemical supplier

Company New Waste Concepts, Inc.
Address 26624 Glenwood Rd
Perrysburg, OH 43551

USA

Telephone: +1 (419) 872-2190

1.4 Emergency phone number

Emergency phone number +1 (800) 424-9300 (CHEMTREC Emergency Telephone, 24 hrs-a-day / 7 days-a-week)

2. Hazards Identification

2.1 Classification of the substance or mixture according to GHS

GHS class Skin corrosion/irritation (Category 2), H315

Eye damage/eye irritation (Category 2B), H320

Classification system

The classification is according to the latest editions and extended by company and literature data.

2.2 GHS Label elements, including precautionary statements

GHS pictograms

Signal word Warning

Hazard statements H315 - Causes skin irritation.

H320 - Causes eye irritation.

Precautionary statements P264 - Wash skin thoroughly after handling.

P280 - Wear eye protection/ face protection.

 $\mbox{P302} + \mbox{P352}$ - IF ON SKIN: Wash with plenty of soap and water.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

P332 + P313 - If skin irritation occurs: Get medical advice/ attention. P337 + P313 - If eye irritation persists: Get medical advice/ attention. P362 - Take off contaminated clothing and wash before reuse.

NFPA ratings (scale 0 – 4)

Health - 2 Fire - 0 Reactivity - 0

HMIS ratings (scale 0 - 4)

Health - 2

Fire/flammability - 0

Reactivity/physical hazard - 0

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Complete toxicity data are not available for this specific formulation.

Potential route of overexposure to this product may include eye and skin contact, and inhalation of excessive amounts of vapors. Ingestion is not expected to be a significant route of exposure for this product under normal use conditions.

3. Composition/Information on Ingredients

3.1 Product mixture

Synonyms Sodium metasilicate, disodium metasilicate nonahydrate

Formula Mixture
Molecular wt Mixture
CAS-No. Mixture
EC-No. Mixture

Chemical Name CAS-No. EC-No. Ingredient Percent

Sodium metasilicate

nonahydrate

13517-24-3 229-912-9 17 %

Remarks There are no additional hazardous ingredients greater than or equal to 1.0 wt% concentration or

carcinogenic ingredients greater than or equal to 0.1 wt% concentration.

Product contains Class 1 non-pathogenic bacterial strains.

4. First Aid Measures

4.1 Description of first aid measures

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

Skin contact Keep away from open cuts and irritated skin. Consult a physician if symptoms occur.

Eye contact Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Inhalation Move person to fresh air. Consult a physician if symptoms occur.

Ingestion Rinse mouth with water and consult a physician if symptoms occur. Do not induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects The most important known symptoms and effects are described in the labelling (see section 2.2)

and in section 11.

4.3 Indication of any immediate medical attention and special treatment needed

Other first aid No data available

5. Fire Fighting Measures

5.1 Suitable (and unsuitable) extinguishing media

appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

Special hazards Thermal decomposition can lead to release of irritating gases and vapors. Keep product and empty

container away from heat and sources of ignition. Use in ventilated areas only. Decomposition

products may include: oxides of carbon.

5.3 Advice for firefighters

Protective equipment Wear self-contained breathing apparatus for firefighting if necessary.

6. Accidental Release Measures

6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions Avoid contact with skin and eyes. Avoid breathing vapors, mist or dust. Ensure adequate ventilation

in areas where dust or vapors can accumulate. Remove all sources of ignition and evacuate personnel to safe areas. Dust and vapors can accumulate in low areas when dealing with large

quantities. For personal protection see section 8.

6.2 Environmental precautions

Environmental precautions Prevent runoff into sewers and drains. Recover as much of the material as possible. Prevent further

leakage and safe to do so.

6.3 Methods and materials for containment and cleaning up

Methods for cleanup Move containers from spill area. Prevent entry into sewers, water courses, basements or confined

areas. Contain and collect spillage with an inert absorbent material and place in container for disposal according to local regulations (see Section 13). Prevent accumulation of vapours/ dust

during clean up. Keep in suitable, closed containers for disposal.

6.4 References to other sections

Other references For disposal see section 13.

7. Handling and Storage

7.1 General hygiene considerations

General hygiene Avoid contact with eyes. Avoid inhalation of vapor or dust. Use local exhaust or general dilution

ventilation to control exposure and dust within applicable limits. Keep away from high temperatures and sources of ignition. For precautions see section 2.2. Wash hands after use. Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation,

should not be exposed to dust or vapor overexposures.

7.2 Precautions for safe handling

Safe handling precautions Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must

be carefully resealed and kept upright to prevent leakage. Product may be hygroscopic and could potentially absorb moisture from the air if container is left open. Keep away from high temperatures

and potential sources of ignition.

7.3 Conditions for safe storage, including any incompatibilities

mentioned in section 1.2 no other specific uses are stipulated.

8. Exposure Controls/Personal Protection

8.1 Control and exposure limits recommended by the chemical manufacturer

OSHA standards Not available - not determined ACGIH TLV Not available - not determined NIOSH recommendations Not available - not determined

8.2 Appropriate engineering controls

Engineering controls Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks

and at the end of day. Use adequate ventilation where dust forms to keep concentration under

exposure control limits. Keep away from high temperatures and sources of ignition.

8.3 Individual protection measures, such as personal protective equipment

Respiratory protection Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator

with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

standards such as NIOSH (US) or CEN (EU).

Eye/face protection Safety glasses with side-shields conforming to EN166 are recommended. Use equipment for eye

protection tested and approved under appropriate government standards such as NIOSH (US) or

EN 166 (EU).

Hand protection Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique

(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.

Wash and dry hands.

Body protection Wear impervious clothing. The type of protective equipment must be selected according to the

concentration and amount of the dangerous substance at the specific workplace.

9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

a) Appearance Opaque liquidb) Odor Slight

c) Odor threshold No data available d) 10.4 - 10.7 No data available e) Melting/freezing point f) **Boiling point** 100°C (212°F) > 232°C (> 450°F) g) Flash point Evaporation rate Equivalent to water h) i) Flammability (solid, gas) No data available

j) Upper/lower flammability Upper (UEL): No data available or explosive limits Lower (LEL): No data available

k) Vapor pressure Equivalent to water
l) Vapor density Equivalent to water

m) Relative density 1.0 at ambient temperatures (approx.)

n) Water solubility Completely soluble
o) Partition coefficient No data available

octanol/water

p) Auto-ignition temp
 q) Decomposition temp
 No data available
 r) Viscosity
 No data available

10. Stability and Reactivity

10.1 Reactivity

Reactivity No data available

10.2 Chemical stability

Chemical stability Stable under ordinary conditions of use and storage. Acids and alkalis may inactivate the bacterial

cultures.

10.3 Possibility of hazardous reactions

Hazardous reactions No data available

10.4 Conditions to avoid

Conditions to avoid Contact with incompatible chemicals and exposure to extremely high temperatures.

10.5 Incompatible materials

Incompatible materials Strong oxidizers, strong acids, acid chlorides, acid anhydrides, chloroformates, or strong reducing

agents. Acids and alkalis may inactivate the bacterial cultures.

10.6 Hazardous decomposition products

Hazardous products None under normal processing. In the event of fire, see section 5.

11. Toxicological Information

11.1 Information on toxicological effects

Acute toxicity

Acute oral toxicity Sodium metasilicate nonahydrate - LD50 Oral Rat - 1280 mg/kg

Acute intravenous toxicity

Acute dermal toxicity

Acute inhalation toxicity

No data available

No data available

No data available

Skin corrosion/irritation

Skin corrosion irritation May cause irritation or damage to skin

Serious eye damage/eye irritation

Eye damage/eye irritation May cause irritation or damage to eyes

Respiratory or skin sensitization

Respiratory sensitizer No data available
Skin sensitizer No data available

Germ cell mutagenicity

Mutagenicity No data available

Carcinogenicity

Carcinogenicity No data available

Suspected cancer agent

ACGIH No component of this product present at levels greater than or equal to 0.1% is identified as a

carcinogen or potential carcinogen.

NTP No component of this product present at levels greater than or equal to 0.1% is identified as a

carcinogen or potential carcinogen.

OSHA No component of this product present at levels greater than or equal to 0.1% is identified as a

carcinogen or potential carcinogen.

IARC No component of this product present at levels greater than or equal to 0.1% is identified as a

carcinogen or potential carcinogen.

Reproductive toxicity

Reproductive toxicity No data available

Aspiration hazard

Aspiration hazard No data available

12. Ecological Information

12.1 Ecotoxicity (aquatic and terrestrial)

Ecotoxicity No data available

12.2 Persistence and degradability

Degradability No data available

12.3 Bioaccumulation potential

Bioaccumulation No data available

12.4 Mobility in soil

Mobility in soil No data available

12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment Not available as chemical safety assessment not required/not conducted.

13. Disposal Considerations

13.1 Waste treatment methods

Waste treatment disposal For consumer use, dispose of in trash can. Waste disposal must be in accordance with appropriate Federal, State, and local regulations.

14. Transport Information

DOT

Not dangerous goods.

IMDG

Not dangerous goods.

IATA

Not dangerous goods.

15. Regulatory Information

15.1 Safety, health, and environmental regulations specific to the product or mixture

SARA 302 Components No chemicals in this material are subject to the reporting requirements of SARA Title III, Section

302.

SARA 313 Components This material does not contain any chemical components with known CAS numbers that exceed

the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards Acute health hazard.

TSCA

All components of this product are on the TSCA inventory or are exempt from TSCA inventory

requirements.

Canada DSL All components of this product are on the Canada Domestic Substance List or are exempt from

DSL requirements.

WHMIS classification
No ingredients are hazardous according to the CPR criteria.

CA Prop. 65 components This product does not contain any chemicals known to State of California to cause cancer, birth

defects, or any other reproductive harm.

International lists Australia - AICS - The materials are listed or exempted

Canada - The materials are listed or exempted
China - IECSC - The materials are listed or exempted
Europe - EINECS - The materials are listed or exempted
Japan - ENCS/ISHL - The materials are listed or exempted

Malaysia - The materials are listed or exempted

New Zealand - NZIoC - The materials are listed or exempted Philippines - PICCS - The materials are listed or exempted Korea - KECI - The materials are listed or exempted Taiwan - NECI - The materials are listed or exempted Turkey - The materials are listed or exempted United States - The materials are listed or exempted

16. Other Information

Revision Date 7 December 2016

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. New Waste Concepts, Inc. assumes no responsibility for injury to the vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Additionally, New Waste Concepts, Inc. assumes no responsibility for injury to vendee or third persons proximately caused by use of the material even if reasonable safety procedures are followed. Furthermore, vendee assumes the risk in his use of the material.

Abbreviations and acronyms

IMDG - International Maritime Code for Dangerous Goods

IATA - International Air Transport Association

GHS - Globally Harmonized System of Classification and Labelling of Chemicals

PBT - Persistent, bioaccumulative and toxic assessment

vPvB - Very persistent and very bioaccumulative assessment

ACGIH - American Conference of Governmental Industrial Hygienists

NIOSH - National Institute for Occupational Safety and Health

TLV - Threshold Limit Values

CAS - Chemical Abstracts Service (division of the American Chemical Society)

NFPA - National Fire Protection Association

HMIS - Hazardous Materials Identification System

CFR - Code of Federal Regulations

SARA - Superfund Amendments and Reauthorization Act

DOT - US Department of Transportation

EC50 - Half maximal effective concentration

LD50 - Median lethal dose

LC50 - Median lethal concentration

SDS - Safety Data Sheet

PEL - Permissible Exposure Limit

TSCA - Toxic Substances Control Act
